Enter the server information provided by QCPS server administrator within the four (4) input boxes as shown below.

Then click the (quick connect) button.

You will be connected to the QCP Systems' server and your specific online folder will appear in the pain on the right side of the dialog box.

**Uploading your files** - Find your file(s) to be uploaded to QCP Systems in the left pain. Place the pointer on the file. Click the left button on your mouse and hold down on it and drag and drop the file over to your online folder and release the left mouse button. Next wait for the file(s) to upload completely. Once the upload is completed, that's it and you are done.

You can close the FTP program.

Finally, email your contact person at QCP Systems to advise that the files have been uploaded.
